# **Ordering Information**

Sample: EJL-G-100HPS-480-BZ-FT-PC

# Project Name: Type: Date: Catalog #:

### **Description:**

The Nulite EJL-G series meets "dark sky requirements" with a full cut-off distribution. This luminaire is offered in compact fluorescent, pulse start metal halide and high pressure sodium.

## Specifications:

**Construction**: Die cast aluminum housing, tempered clear glass lens, engineered aluminum reflector - wide or forward throw distribution and powder coat paint finish - bronze (standard), white or black optional.

**Reflector / Ballast**: Reflector is specular aluminum engineered for performance with two distribution options - wide or forward throw. Ballast is electronic for CFL, and open core & coil style for HID.

**Lamping**: 1 lamp compact fluorescent, metal halide or high pressure sodium. Luminaire can be ordered with lamps, consult factory.

**Mounting**: Wall mounted for down lighting only. Designed to mount to an adequately supported 4" octagonal recessed outlet box by others.

**Labels**: UL / cUL listed, suitable for Wet Locations in down lighting applications only.
