Tavo is a modern expression of lighting technology contained within a sleek and elegant form ideally suited for general illumination in office spaces, and schools. At Tavo's core is a 4mm thick acrylic optical light guide that has been designed to efficiently deliver and control light for direct-indirect lighting applications where visual comfort and low energy consumption are primary requirements.

Construction: Extruded aluminum housing with die cast radiused aluminum end caps. Powder coat white finish is standard. Optional silver, black or custom colors.

Optics: 4mm thick acrylic optical lightguide coupled with high efficacy mid power LEDs delivers controlled light distribution to create uniform ceiling surfaces and wide luminaire spacing for low glare and high visual comfort environments.

Driver / Enclosure: Standard constant current electronic driver housed in a separate enclosure with 0-10V dimming input; dimming range from 100% down to 1%, other dimming options are available. One remote driver enclosure per unit. Universal (UNV) voltage is from 120 - 277V, 50/60 Hz. Optional drivers available. Tunable white requires eldoLED's DUALdrive driver for use with DALI or DMX protocol controls by others.

LED Module: Distributed LED array in a variety of lumen output packages. LED color is available in 3000K, 3500K or 4000K with CRI of 80 or 90. Modules are replaceable. L90 ≥ 100,000 hours. Tunable white module utilizes 50% 2700K and 50% 6500K diodes, consult factory for availability.

Mounting: Pendant, individual or continuous run.

Labels: ETL listed, conforms to UL Standard 1598 / 8750 and CSA Standard C22.2. Damp location.

Warranty: 5-year limited warranty on LED and Driver.

Ordering Information

Sample: TVS-55-15H40-UNV-D-1C-WH-T1-48-16'

TVS-55 (55% Downlight)

Standard - Open

Efficacy: Up to 120 Lms/W

Lumen Range (3500k): 760-1690 lms/ft

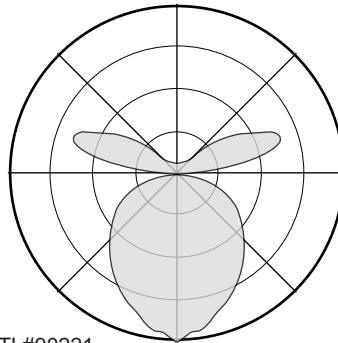

ITL#90199

TVS-73 (73% Downlight)

Optional- Requires 2 Top Reflectors

Efficacy: Up to 116 Lms/W

Lumen Range (3500k): 730-1630 lms/ft

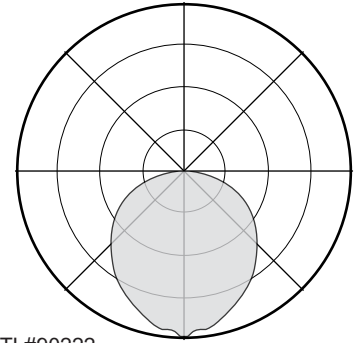

ITL#90221

TVS-TC (100% Downlight)

Optional- Requires 1 Top Cover

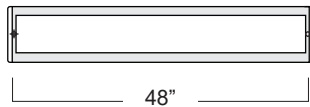

Efficacy: Up to 115 Lms/W

Lumen Range (3500k): 725-1620 lms/ft

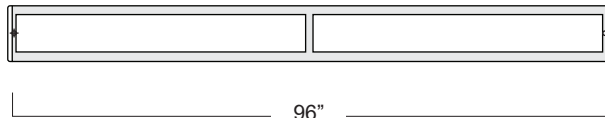

ITL#90222

DRIVER ENCLOSURE Options

When designing your Tavo lighting system, you must choose one of the following driver enclosure options that have been specifically designed to address three primary ceiling conditions: Grid, Sheet Rock, and Structural Ceilings.

Page 3

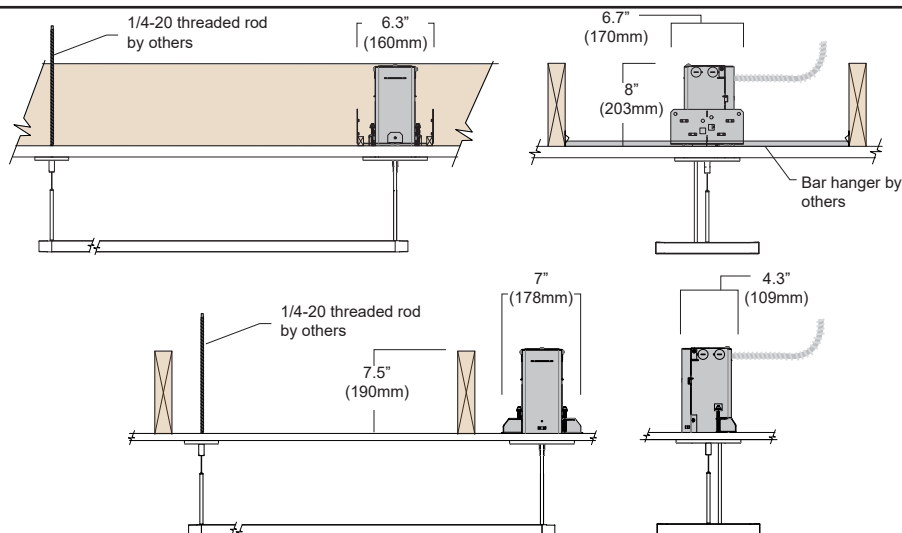

GRID CEILING (Option T1, T9 or TS) Recessed "Enclosure G"

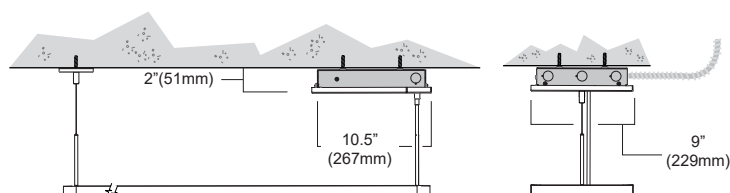

SHEET ROCK CEILING (Option GP) Recessed "Enclosure GP"

Note:
"Enclosure GP" may also be used in Grid Ceiling applications with bar hangers, consult factory.

CEILING SURFACE MOUNT (Option SR) Surface Mount "Enclosure SR"

CEILING SURFACE MOUNT (Option SR-Battery) Surface Mount "Enclosure SR-Batt"
